Art Unit: 1711

The following is an examiner's statement of reasons for allowance: no prior art has been found nor presented that either teaches or fairly suggests the production of a styrene-free composition "consisting essentially of: A. an unsaturated polyester not derived from dicyclopentadiene; B. a urethane (meth)acrylate; C. a hydroxyl-functionalized (meth)acrylate monomer; and D. a multifunctional (meth)acrylate monomer, wherein the resin composition is curable under an air atmosphere at ambient temperatures and contains less than about 3 weight percent of hazardous air pollutants," as recited and claimed herein. The objection to claims 13 and 15 is hereby withdrawn. Since these claims depend from claims 12 and 14, wherein a positively included recitation is made, the claims are deemed to be further limiting under 37 CFR 1.75(c). The timely-filed Terminal Disclaimer is deemed to overcome the rejection of the claims under the judicially-created doctrine of obviousness-type double patenting over copending application Serial Number 10/440,610. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan M. Nutter whose telephone number is 571-272-1076. The examiner can normally be reached on 9:30 a.m.-6:00 p.m..
